

Content of Technical Documentation to provide to market surveillance authorities

# Domestic hobs

This guide presents the technical documentation that you have to provide if the market surveillance authorities ask for it. There are however other information requirements and requirements on web-information that you always need to fulfil according to the regulations.

## NORDSYN SEPTEMBER 2015

*Domestic hobs using electricity and gas are covered by ecodesign requirements according to Regulation (EU) No 66/2014. The requirements apply to domestic hobs as described in Article 1 and 2 of the above mentioned Regulation. The documentation shall be produced before the product is placed on the market. The technical documentation shall be sufficient to enable assessment of the conformity of the product with the requirements. In this respect it is important that test reports are included in the technical documentation.*

### Technical documentation for domestic hobs

Demands	How to comply
Name and address of supplier	Company name and complete address.
General description	Description of the model so that it is easily identified and distinguished from other models (model name and number, size etc.) and a list of equivalent models, if relevant.
List of applied standards	Applied measurement standards (harmonised standards and/or other technical standards and/or specifications).
Identification and signature of the person empowered to bind the supplier	Name and signature of the person responsible for the product.
Copy of calculation	A copy of calculations set out in Regulation Annex II. ←
Model information	Models where the information in the technical documentation is obtained by calculation on the basis of another domestic hob, details of such calculations and of tests undertaken by suppliers to verify the accuracy of the calculations.  Furthermore a list of all other equivalent domestic hobs where the information is obtained on the same basis.

The hobs shall comply with the energy requirements set in the Regulation Annex I table 2.

## Technical documentation for domestic hobs

Demands	How to comply
<b>Product information and technical parameters</b>	<p><b>Total environmental impact</b> Information relevant to users in order to reduce total environmental impact (e.g. energy use) of the cooking process.</p> <p><b>Disassembly and dismantling</b> Information relevant for non-destructive disassembly for maintenance purposes and information relevant for dismantling, in particular in relation to the motor, if applicable, and any batteries, recycling, recovery and disposal at end-of-life.</p> <p><b>Technical parameters</b> Technical parameters for domestic electric hobs, gas-fired hobs and mixed hobs set out respectively in Regulation Annex II. ←</p>

Choose the table that applies to the product:

- Table 5a for electrical hobs.
- Table 5b for gas-fired hobs.
- Table 5c for mixed hobs.

*This guide presents the contents of the Regulations and is addressed to manufacturers, importers and others interested. The guide is not a substitution for the Regulations, and in any case of doubt, the Regulations are applicable. This guide is not legally binding as a binding interpretation can only be made by the EU court.*

COMMISSION REGULATION (EU)  
No 66/2014 of 14 January 2014  
implementing Directive 2009/125/EC of  
the European Parliament and of the Council  
with regard to ecodesign requirements for  
domestic ovens, hobs and range hoods.

**Equivalent product** means a product model placed on the market with the same technical and performance characteristics, as another product placed on the market under a different commercial name by the same manufacturer.
